Governor

FRANCINE A. GIANI
Executive Director

F. DAVID STANLEY
Division Director

May 1, 2007

Welcome to DOPL's New Website!

After many months of research, development, and testing, the Utah Division of Occupational and Professional Licensing is pleased to announce the launch of its newly designed internet site:

www.dopl.utah.gov

The redesigned site offers new features to assist applicants, licensees, and the general public in locating the information they need and completing online services faster and easier. In fact, many of the changes found in the new site are the direct result of feedback and recommendations received by users of the site. Specifically:

- improved navigation through the consolidation of previously separate pages
- optimized graphics and layout for faster download time
- greater availability of board information
- increased ability to directly contact DOPL personnel via improved email functionality
- more consistent presentation of information across all profession and program pages through the use of color-coded schemes

And, we're not done yet! Now that the new site has been launched, we have begun development of additional services including online access to licensure disciplinary files and the ability to submit initial applications for licensure electronically.

We encourage you to become acquainted with the new site and then let us know what you think (www.dopl.utah.gov/feedback.html). As always, we'll continue to use that feedback to make future improvements to the site.

Sincerely,

F. David Stanley,
Division Director, DOPL
